Summary

Detail-oriented web development professional with experience designing and developing more than five responsive websites using HTML5, CSS3, CSS Grid, Flexbox, Git, and GitHub. Demonstrated the ability to create accessible, user-centered web applications while applying modern front-end development practices and responsive design principles throughout academic projects. Professional experience managing administrative operations for more than 90 personnel has strengthened organizational, communication, and problem-solving skills that translate effectively to collaborative development environments. Committed to continuous learning and eager to contribute technical expertise, analytical thinking, and a strong work ethic to an entry-level web development role.

Skills

HTML/CSS • Git • GitHub • Visual Studio • Responsive Web Development • Adobe • Microsoft Outlook • Excel

Work Experience

Non-Commissioned Officer In Charge (NCOIC), Commander Support Staff (CSS)

Oct 2024 – present

United States Air Force • Full-time

Wiesbaden, Germany

Technologies: SharePoint • Microsoft Teams • Microsoft Outlook • Adobe • Excel

As the Noncommissioned Officer in Charge (NCOIC) of the Command Support Staff (CSS), I oversee the daily administration of personnel programs while ensuring compliance with Air Force policies and procedures. I manage personnel actions, including assignments, evaluations, awards, decorations, leave, training, deployments, official correspondence, and records management, while providing administrative support to unit leadership and Airmen. In addition to supervising CSS operations, I mentor personnel, prioritize workflow, resolve administrative issues, and ensure the timely execution of mission-critical tasks. By maintaining efficient personnel processes and supporting leadership decision-making, I help enhance organizational readiness and contribute to the successful accomplishment of the unit's mission.

Technician, Commander Support Staff (CSS)

Sep 2023 – Sep 2024 • 1 yr

United States Air Force • Full-time

South Korea

Technologies: Microsoft Outlook • Microsoft Teams • Adobe • Excel

A Command Support Staff (CSS) member serves as the administrative backbone of an Air Force unit by managing personnel programs, processing official military actions, and supporting leadership with daily operations. CSS personnel coordinate assignments, evaluations, awards, decorations, leave, training, deployments, and official correspondence while ensuring compliance with Air Force policies. They also maintain personnel records, assist Airmen with career-related actions, and provide essential administrative support that enables the unit to accomplish its mission efficiently.

Technician, Commander Support Staff

Sep 2021 – Sep 2023 • 2 yrs

United States Air Force • Full-time

Aviano, Italy

Technologies: SharePoint • Microsoft Outlook • Microsoft Teams • Adobe • Excel

A Command Support Staff (CSS) member serves as the administrative backbone of an Air Force unit by managing personnel programs, processing official military actions, and supporting leadership with daily operations. CSS personnel coordinate assignments, evaluations, awards, decorations, leave, training, deployments, and official correspondence while ensuring compliance with Air Force policies. They also maintain personnel records, assist Airmen with career-related actions, and provide essential administrative support that enables the unit to accomplish its mission efficiently.

Customer Support Technician

Aug 2020 – Aug 2021 • 1 yr

United States Air Force • Full-time

South Korea

Technologies: Microsoft Outlook • Adobe • Excel • PowerPoint

As a Customer Support Technician in the Military Personnel Flight (MPF), I provided front-line personnel support to service members, retirees, and dependents by assisting with a wide range of military personnel programs and customer service functions. My responsibilities included processing identification card and DEERS transactions, updating personnel records, assisting with benefits and entitlements, and ensuring customer information was accurate and compliant with Department of Defense and Air Force regulations. I answered customer inquiries, resolved administrative issues, maintained the confidentiality of sensitive personal information, and coordinated with other MPF sections to ensure timely and accurate service. Through strong attention to detail, professionalism, and effective communication, I helped deliver efficient personnel support while contributing to the overall readiness of the installation.

Trainee

Feb 2020 – Aug 2020 • 6 mos

United States Air Force • Full-time

United States

Technologies: PowerPoint • Microsoft Outlook

As an Air Force Trainee, I completed the transition from Basic Military Training to technical training while maintaining military standards, accountability, and readiness. During this period, I participated in daily military formations, physical training, and professional development activities while adhering to Air Force policies, customs, and standards of conduct. I supported installation operations through assigned details and responsibilities, developed discipline, teamwork, and time management skills, and prepared for technical training by demonstrating adaptability, professionalism, and a commitment to mission readiness.

Retail Associate

Jan 2020 – Feb 2020 • 1 mo

DD's Discounts • Part-time

Stockton, United States

As a Retail Associate at dd's DISCOUNTS, I supported daily store operations by unloading merchandise shipments, organizing inventory, and stocking sales floor displays to ensure products were readily available for customers. I maintained accurate inventory organization, replenished shelves, and ensured merchandise was displayed according to company standards to create a clean and inviting shopping environment. Additionally, I assisted with receiving deliveries, maintaining stockroom organization, and collaborating with team members to complete tasks efficiently in a fast-paced retail setting. Through attention to detail, time management, and teamwork, I contributed to smooth store operations and a positive customer shopping experience.

Projects

Indie Film Collective

Jun 2026 – Jun 2026 •

Technologies: HTML/CSS • Git • GitHub • VS Code

This project is a responsive, multi-page website created for a fictional organization called Indie Film Collective. The website was developed as part of a web development course to demonstrate the ability to organize a professional multi-page website using HTML5, CSS3, relative navigation, and responsive design techniques.

The project emphasizes clean code organization, semantic HTML, accessibility, and mobile-first web development while providing information about independent film screenings, workshops, collaborations, and volunteer opportunities.

Jun 2026 – Jun 2026 •

This project is a responsive webpage that highlights some of my favorite foods from South Korea, Italy, and Germany. It was created as part of a web development course to practice semantic HTML, CSS Grid, Flexbox, and accessible web design. The website combines organized content with responsive layouts to create an engaging user experience across different screen sizes.
